

WOOD FLOORING TRENDS

Progress Profiles

DENNIS BORDIN - CEO ◀

For almost 40 years, Progress Profiles has been a leader in the production of technical and decorative finishing profiles and laying systems for building and interior design, offering over 15,000 products and 21 patented systems for the most diverse environments. With its Italian DNA, the company stands out for its wide range of functional and aesthetically pleasing solutions, produced at its headquarters in Asolo (TV) with high quality materials and state-of-the-art machinery, and designed with a sustainable perspective.

SKIRTING 7016 AND 7011

Available in more than 30 wood effect finishes, Progress Profiles' Skirting 7016 and 7011 in expanded vinyl resin are perfect for creating a continuous effect or a chromatic contrast with parquet flooring; original custom solutions can also be requested to give rooms a unique touch. With the same finish as the chosen skirting board, the company also offers fittings such as internal and external corners and caps, for a final effect studied down to the smallest detail.
