

CURVE PROFILE

DESCRIPTION

CURVE PROFILE is an aluminium profile with a round terminal. Its particular section and the availability in four finishes, make it a profile that can be easily matched with any kind of material.

MATERIAL

CURVE PROFILE is a profile with a round terminal, in anodized silver and gold aluminium, polished chrome aluminium and white varnished aluminium. The profile is available in the measures of 18 - 22 and 25 mm. The availability in four different finishes and three measures make it a much sought after profile.

AREAS OF USE

CURVE PROFILE in anodized aluminium is suitable for indoors environment where good resistance to mechanical and chemical stresses are required.

WARNINGS

Do not use **CURVE PROFILE** in anodized aluminium outdoors and in environments where aggressive substances are used. Clean immediately the surface of the profile from all remains of adhesive or grout after laying; the permanence of these substances on the surface may lead to formation of non-removable aluminium hydroxide (dark halos).

MAINTENANCE

CURVE PROFILE does not require any special maintenance. It is suggested to clean it with normal household cleaning products.

LAYING INSTRUCTIONS

1. Choose "**CURVE PROFILE**" according to the desired finish.
2. Cut "**CURVE PROFILE**" to the desired length.
3. Remove carefully any remains of oil, fat and dirt from the surface where the profile will be laid.
4. When the surface is perfectly dry, remove the protective film.
5. Press the profile evenly until it is completely adherent to the wall.
